

NEMATOLOGICAL ANALYSIS REPORT

Data of Received Material

Analysis: AN 521/2025
Applicant: AGRO DE CUYO / Agr. Eng. Pablo García
Material received: A sample of substratum, identified as:
M1: Tray of speedling with 25 little plants of Pistachio 2025 Lote 2
(37.000 plants)

RESULTS: Number of individuals in 1000 grams of substratum

Trophic group	M1
Phytophagous	zero
Omnivores	zero
Mycophagous	zero
Predators	zero
Bacteriophages	3200

Lab. Biotecnológico Vegetal
M.Sc. Ing. Agr. Jorge G. Lafi
Mat. 7848-A

The reported results pertain solely to the sample(s) received and analyzed. LBV is exempt from any responsibility beyond what is stated in this report.
